

*Community Solutions  
Project: Theory of  
Change*

Solutions to complex community problems require:

- Multiple/Diverse stakeholders
- Access to information
- Access to resources

Communities need skilled people in intermediary roles to connect:

- People with information
- People with people
- People with resources

Effective intermediaries need:

- Skills
- Knowledge
- Habits

*Vision: Members of the Community Solutions Project will work together to coordinate intermediary efforts, evolve as intermediary level workers, and improve conditions for people working at a community level.*

The Community Solutions Project intends to build community capacity for intermediary work in order to solve complex community problems.
